TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From MR. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
"The market is being flooded with sheep dips, some of which are all that is claimed, and also by some which are worth little or nothing. Our readers will have noticed that *several preparations have been mentioned in letters received from the camp showing that there are several good preparations.*"—B.A. HERALD.
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same

THE CONSOLIDATION BILL.

After prolonged delays which almost exhausted the public patience the Hacienda Committee of the Senate has despatched what is termed the Consolidation Bill for the payment of the debt due by the Nat. Government to the Provincial Bank. It is indeed to be regretted that in a question so simple so much valuable time should be lost. People have gone to Europe and come back since the project was first sent by the Government to the Deputies, and now at the eleventh hour, when it comes before the Senate for final approval, it brings with it a split report from the Committee, two of whose members favoured the measure, whilst a third proposes a new scheme which will take us all back over the ground we have travel led, and in all probability postpone the question of simply paying off the Bank until next year.

The danger to be feared from this prolonged legislation is that the Provincial Bank will be unable to control the gold market, being deprived of those bonds which the Government proposed to pay to it. The Bank at present is fighting the gold market by means of exchange operations; these transactions are based upon the negotiation of the bonds issued under the new Provincial Loan Law. It is worthy of remark that other countries where forced currency exists or has existed, have never attempted the resumption of specie payments by mere exchange operations, and a financial experiment is now being tried on this market which, with the co-operation of the Nat. Government, had good chances of success, but if Congress close without passing the Government Consolidation Law, the result may be unfavourable both to the bank and to the market.

The dream of nationalizing the Provincial Bank was fully discussed by the Committee and finally rejected, and the report which we give at foot, signed by the majority of the Committee, as also the proposed amended law introduced by Dr Pellegrini, will explain to our readers both the present stage of the question and the increased firmness of the gold market.

The following are the documents:

Hon. Sir,

The Finance Committee have closely examined the project o Law, as amended by the Chamber of Deputies, authorising the emission of $f16,000,000 in Public Bonds to pay the debt due to the Provincial Bank of Buenos Ayres and definitely amortize the 10,000,000 pats. emitted for account of the Nation, and for the reasons which the informing member will lay before you, have the honour to recommend that the Bill, as sanctioned by the Chamber of Deputies, be approved.

Jose N. Baltore, Victor C. Lucero.

Dissenting—*C. Pellegrini.*

Senate Committee Rooms,
B. Aires, Aug 5th.

Senator Pellegrini presented the following project of Law.

Art. 1. The Executive shall emit 24,000,000 hard dollars in Treasury Bills of 6 per cent interest and 1 per cent accumulative amortization by drawings at par, with liberty to increase the amortization fund at any time.

Art. 2. These Treasury Bills or the proceeds of them shall be devoted to paying the following debts:—

1st. Debt due to Provincial Bank previous to the contract of September 1876.
2nd. Amortization of the notes issued under said contract.
3rd. Amortization of the Treasury Bills issued to pay for National Bank shares.
4th. Amortization of Treasury Bills created by Law of 19th Oct. 1876.

Art. 3. The Executive can amortize the above debts and negotiate the Treasury Bills created by this Law in whatever way it deems best.

Art. 4. Let this be communicated.

C. *Pellegrini.*

THE "MEMORIA DE HACIENDA."

The following figures of the Finance Minister's report will be found most interesting, as they refer to the most vital point in the prospects of the country. The subjoined table expresses the amounts paid by the National Government since 1875 to maintain colonies—

Chubut	236, 78.57
Santa Cruz	115, 82.45
Resistencia	169,563.40
Villa Libertad	71,843.77
San Xavier	29,507.14
Gen. Alvear	170,196.46
Sampacho	65,708.53
Cavoya	78,315.88
Formosa	67,315.79
Pres. Avellaneda	131,513.78
Private Colonies—	
Iriondo	128, 99.32
Olavarria	148, 82.20
Rodriguez	1,600.—
Farana	200.—
Calvari Contract	61,320.—
Various	19,616.34
Various	64,120.43
Total	$f.998,677.09

These figures give one for the present an idea of the outlay of colonies, but more statistical data are urgently required.

Approximate calculations show that the Government has spent since the year 1869 to 1880 the sum of $2,504,190 in colonization and immigration purposes; there is no doubt that the sums in reality spent are much larger. More accurate figures can be obtained respecting the outlay of the Government in fomenting immigration—

1864	$ 2,050
1865	16,000
1866	14,846
1867	16,000
1868	22,226.24
1869	24,648.32
1870	70,739.60
1871	92,616.74
1872	66,064.66
1873	159,250
1874	177,205.20
1875	231,699.40
1876	223,461.03
1877	321,124
1878	379,839.16
1879	499,613.68
1880	521,209.62
Total	$2,796,424.55

It is necessary to foment immigration, but only such as brings us hardy, industrious and honest men, accustomed to hard work. An indiscriminate outlay would only lead to a vicious current of immigration. Statistics up to the present give no details as to the class of emigrants that land in the country, and care should be taken to avoid the introduction of sickly or deformed individuals.

Most of the money spent on colonization has gone towards keeping the present colonies in existence, whether in Buenos Aires, Cordoba or Santa Fe, etc. The colonies have not been financially profitable to the nation, and nearly all are still heavily in debt, owing to the advances made to the colonists.

As long as the Government cannot afford larger outlays it should limit its liberality to fomenting immigration, distributing free passages over the Republic and starting colonies in the National territories, and not in the several provinces, where they are under local jurisdiction and local taxation.

THE COLON THEATRE.

On Tuesday night the public had a real treat, for I think no one will deny that Adam's opera called 'Si j'etais roi' is the best of all French operas. You know not which of the three sparkling acts to admire most, for they are all full of charming melodies, and with such pieces put on the stage in magnificent style and such really good singing Mr Grau's company cannot fail to succeed; in fact, every one will regret that his stay will be so short. I heard that the above named piece is taken from the Arabian Nights, and one can easily imagine it to be so, from the gorgeous costumes and romantic sequel of the piece.

The prima donna, Mdlle. Helene Leroux, is not only a good artist in point of acting but her voice is a soprano of no mean order, and, being very handsome, she took the character of an Oriental princess remarkably well: gold lace and diamonds in profusion become her and, apparently, from the bracelets, rings, &c, she wore, she does not object to those ornaments, no doubt thinking, as many do, that their own personal attractions are not sufficient.

Mdlle. Lenz has an agreeable voice and took her part very well.

Mr Mauras, the tenor, is reported to be suffering from a bad cold. Did you ever know a tenor who was not?

Mr Mauge, the baritone, has a splendid voice and sings with exquisite taste.

Mr Tauffemberger, likewise, is a very good artist. The first impression was that the company were not worth going to hear, but I think the public find out that they improve very much on acquaintance.

The Old Stager.

The Magellan's Mails.

As there was no steamer from Montevideo yesterday morning, to bring up the mails by the Pacific steamer from Liverpool, we avail of the following exhaustive telegram to our enterprising colleague, *La Nacion*, with all the latest news. The latest dates are Lisbon, August 16th:—

"The Treaty with the Boers is more advantageous for England than at first supposed. The latter reserves the right to pass her troops through the Transvaal territory, to veto the laws passed by the Boer Parliament in reference to the native tribes, and to exercise absolute authority in reference to Boer international policy." Besides, "the Republic of the Transvaal" is saddled with a stiff War Debt. The Opposition in Parliament has been completely "shut up" by the publication of these conditions.

The man Grumberg and the woman who were arrested at Belgrade on suspicion of their intention to murder the Czar, were commissioned to commit the deed by the Nihilist Executive at Geneva; but the man got nervous and stopped at Belgrade. Then the Executive sent the woman, to put spirit into him, which she did, and they were about to start for Russia when the Servian police laid them by the heels. The papers found on them show that the plot was not against the Czar alone, but that the German Socialists had arranged to blow up the Emperor William at the same time.

Advices from St. Petersburg say that the Nihilists have abandoned the system of dynamite, arson, murder, &c., and have fallen back on producing local disorder, such as their attacks on the Jews, which give rise to awful scenes, and the troops are frequently unable to cope with the mob without shooting them down by wholesale.

The *Golos*, one of the most important papers of St. Petersburg, has been suspended for six months for writing against Panslavism. In the last Czar's reign it got the same punishment for the same offence, but the present Czar successfully interseded with his father in its behalf; but now the reigning Czar evidently supports Panslavism.

Lord Salisbury's opposition to the Irish Land Bill was near producing a crisis in the Cabinet.

Earl Granville has sent a circular to the British representatives abroad telling them to let all British subjects know that when they fall into the claws of banditti, or into other little difficulties, the Government will not move a hand to extricate them, except so far as diplomatic interference may go, but the British Government will consider responsible, in such cases, those foreign Governments which are not strong enough to protect the lives and properties of foreigners.

The agitation against the Jews has again sprung up in Germany. At Schievelbin there was a terrible riot. The police were powerless against the infuriated mob who sacked the Jews' houses, yelling 'Down with the Jews!' They sang the popular song 'I am a Prussian,' and 600 of them committed all kinds of atrocities in the streets. The Press calls on Bismarck to stamp out the anti-Jewish demonstrations.

All Europe is trying to fathom the motives for the meeting between the two Emperors at Gastein, but as yet they have not transpired. The Emperor of Austria has gone to the Tyrol.

The Archduke Stephen of Austria is going to marry one of the King of Spain's sisters.

A rumour that the Pope intended to abandon Rome caused great agitation. His Holiness subsequently declared that force alone would compel him to leave the Eternal City.

At Belville Gambetta explicitly denied that he aspired to become Dictator. The republican Press say that he will be President of the Council in the next Cabinet.

The International Electrical Exhibition opened in Paris on the 10th ult.

The *Epoca* of Madrid says that the French troops sacked the Spanish Consulate in Sfax, and that the Austrian Consul there is ready to swear to the fact. (Swear not at all, Consul.)

The repetition of terrible fires in several parts of Spain has caused intense alarm and immense damage. In Estremadura there was no doubt as to their criminal origin, and they were spreading rapidly.

EDITOR'S TABLE.

We salute our Brazilian readers on the 59th anniversary of the Independence of their great country. Brazil stands alone on this continent as the representative of the monarchical form of Government, and she represents it well. The illustrious man who sits on her throne is a model sovereign in every sense of the word, and his name is synonymous with for able statesmanship and private qualities and talents of the highest order, as in the Republic of Letters and Science Dom Pedro stands even higher than he does on his own imperial throne. Brazil owes as much of her prosperity, perhaps, to the ability of her ruling classes as to her unlimited resources. That both combined may contribute to her greatness and development in the future as in the past, is our sincere wish in congratulating the Brazilian residents of the R. Plate on yesterdays glorious anniversary.

Ladies and gentlemen. Dont forget that the 'special' leaves the Parque Station this morning for Lujan at 9.25 a.m. We saw the prizes yesterday evening in Calle Florida. They are gorgeous. Dont forget the hint our sporting prophet gave some days ago as to the horses to back. If he has missed in a single case, we'll say to him on Friday morning—we love thee 'Book,' but never more be racing prophet of ours. President Roca is going to the races, and will leave in the special train. Members of the Racing Club can obtain members' cards at the Grand Stand 'boleteria.' Just as we were going to press we received the following prophecy from our friend Derby (Darby is the proper pronunciation) in reference to the Premio Argentino

1. Aconite
2. Narcissus
3. Soldado

'Derby'

The Italian brokers are all going, and mean to win everything.

The French mail steamer Congo sails for 'la vieja Europa' to-day. As it is a holiday, the mail bags close for stamped letters at noon. Our office will be open to 11 o'clock.

The 'no steamer' nuisance came nto play again yesterday morning and left merchants whistling in vain for their correspondence by the Magellan. If they look particularly alive, they may have about a quarter of an hour clear this morning in which to answer their letters before the Congo's bags close. The kindest wish expressed yesterday for the Montevidean steamer owners, agents, and everybody belonging to them was that they may all go headlong into National Bank shares, be irretrievably ruined, and give place to more enterprising men.

The news by the Magellan is unusually interesting. We give it in another column. The conditions of the treaty with the Boers have surprised everybody. The Dutchmen have not got the best of the bargain, as supposed. The 'independence' granted to them seems to extend only to unlimited liberty to pay all their own expenses for the future and a good part of the Imperial expenditure in fighting them in the past.

We had the pleasure of an visit yesterday from Dr Mackern, son of Mr William Mackern of Calle Florida, who has recently arrived from England. Dr M. is delighted with the life and bustle of Buenos Ayres, which he considers 'a little Paris' We hope to see Dr Mackern settle in this country, but he has not made up his mind yet.

We commend the following, from the *Builder*, to the National and Provincial Governments, which are both contemplating extensive expenditure in the building line:—"Cost of modern building.—It is interesting to compare the cost of some of the most recent buildings of the present day. The new Grand Opera at Paris cost 40,000,000f.; the new Hotel de Ville, 40,000,000f.; the new Paris Post Office, 20,000,000f.; extension of the Conservatoire de Musique 8,000,000f.; the new Museum of Victoria, Australia, £100,000; the Maison du Roi, in the Brussels Marketplace, 2,000,000f.; the new Provincial Government Buildings at Bruges, 2,000,000f.; the Brussels Cavalry Barracks, 4,000,000f.; the new Brussels Mint, 4,000,000f.; the Palais des Beaux-Arts at Brussels, 3,000,000f.; the new Museum at Antwerp, 2,000,000f.; the Palais de Justice at Brussels, 40,000,000f; and the Department of Justice Building at the Hague, 1,700,000f. We may compare with the above the cost of the following buildings in the United Kingdom: The Houses of Parliament at Westminster cost £3,500,000; or 87,500,000f.; the new Foreign Office, Whitehall, £550,000; the Record Office, £120,000; and the Law Courts are estimated, exclusive of special fittings, at nearly £900,000."

The 'divine Stagno' has been engaged for the opening of the new opera house in Calle Florida. The 'empresario' is trying hard to get hold of some lyric celebrities, and he says 'd—ash the expense'; but this recklessly liberal policy is not unlikely to fail in competition with London and St Petursburg, the dual Paradise of operatic stars. Even N. York finds it very hard to occasionally entice operatic planets of the first magnitude across the Atlantic.

We feel great pleasure in saluting Dr Justiniano A. Ledesma, who has returned from Europe in the Tamar. Dr. Ledesma has passed the last eighteen months in Europe, completing his medical studies in the first hospitals of England, France, Germany and Italy. He attended the recent Medical Congress, inaugurated in London by H. R. H. the Prince of Wales. Several other Argentine medical men—Drs Montes de Oca, Ovejero, Valdez, Lloveras, etc were also there. We cordially welcome Dr Ledesma back to his native land and wish him every success in his noble profession.

People who like a sensation should go and hear Professor Piuggari's lectures at the Spanish Club, on Spiritualism. He gave the first some nights ago, and the *Nacion* of yesterday gives a graphic account of it. The Professor says that table-turning, spirit-rapping and the rest of it, is as old as the hills. The Roman magicians of the second century were far better hands at such tricks than their modern imitators. The Professor's references to Messmer and the famous Balsamo (Cagliostro) were very interesting. Even our friend Hermann falls short of the wonderful 'protagonista' in the 'Memoirs of a Physician.' What a pity there is no Caglisotro in Buenos Aires to tell us the price of Nat. Bank shares on next Christmas Eve.

On Monday all the craft which had run to the Tigre and other places for shelter from the storm returned, and an industrious reporter went to the trouble of counting all the vessels, whaleboats, etc in the roads at 2 p.m., the result being 2000 sail, large and small. They all had their canvas fluttering in the breeze to dry, and the sight, as the sun shone on the white sails, was most striking.

Telegrams from Chascomus say that the Cattle Fair there is a great success and that the estancieros have flocked to it from all parts.

Dr Vicente Quesada, editor of the *Nueva Revista*, leaves to-day in the Congo on a trip to Europe. We wish our distinguished colleague a pleasant time of it.

Mrs Garcia's new composition, 'Se Alquila' is now the rage in all fashionable drawing rooms. It is a very romantic little song, suitable for maidens and tolerably young widows, with lodgings to let—in their hearts—for single gentlemen.

'Ultimo' will be repeated to-night at the Concordia Club by our German amateur friends. We strongly recommend all who can to secure tickets, as the piece is a splendid one, and splendidly performed.

Two fashionable wedding parties took place last night, one at Flores: Mr Carlisle led to the Hymeneal Altar Jessie, the lovely and accomplished daughter of David Methven Esq. of Flores; and in town Mr Bohlers, a leading German exporter, led to the same happy altar Miss Schneidewind. In all our noon of fame there is nothing happier to record than weddings, May every happiness await the young couples.

Our colleague *La Republica* admits with deep dejection that Congress, whose ordinary session is fast drawing to a close, has done absolutely nothing but deliver 'grandes, largos y tremendos discursos.' Right you are colleague. There are only 23 days (counting holidays) now remaining for making more speeches, and as an averagely good speech from a Congressman occupies three days, the public, thank goodness, have only to bear the infliction of 7½ more speeches, and if the weather should be wet, perhaps not even that. Hurrah!

In connexion with the body-snatching case of Mrs. Dorrega, the following has interest at the present moment. It appears in a recent London paper:—"We often have complaints from the sensative part of the community against the use of pauper bodies for anatomical study, and there is sometimes great difficulty at the schools in securing a good piece of a healthy subject when first brought in, as the best parts are quickly monopolised. In the United States, however, they have regular body-snatchers, who ply a good trade, but in some of the American graveyards in the Western cities, where body-snatching is prevalent, bombs are placed in the newly-made grave. When the diggers come the bombs are expected to explode and kill them."

We are informed by the passengers of the R.M.S. Tamar, last voyage, that a more thoroughly comfortable and better-going steamer cannot be desired. Captain Bell the courteous and popular Commander, is mentioned in the highest terms of praise, as also Dr. Reed, cousin to the well-remembered physician to the British Hospital, in days gone by. The creature comforts are ably supervised by Mr. Grey, the ever polite purser, and those who contemplate a run home should not miss so happy an opportunity as a trip in the Tamar.

Owing to pressure on our space, we were unable to publish the Cricket Match, played at Palermo, on the 25th of August, before this. However, better late than never. Full particulars will be found in another column.

VALUE OF PAPER-MONEY.

Until the evening of 10th Sept. the rate will be—

25⅝40 cents Prov. Bank m/c. 1⅜ gold.

EMILIO CIVIT.

ON 'CHANGE.

Sept. 7th

Patacones	25.50
Cedulas A	99⅜
National Bank Shares	128½
National Bonds 1876	90
Old Gas Co. Shares	2100

The gold market ruled easier to-day than yesterday, and there was less of a flurry about the debate in Congress on the Chilian treaty. Gold rules cheaper for cash than on time, which means paper money is scarce, and we heard complaints from many parties to-day about the growing tightness of the money market. Gold opened cash at 25.50 and closed at same; 121,950 pats sold. For the end of the month 271,950 pats sold at 25.55. There seemed to be less disposition to secure gold on time to-day.

Cedulas, a very slow market; nothing doing; 1,200 sold cash at 99⅜ and buyers offering at this rate no sellers, and for Oct. 31st 20,000 sold at 99⅝.

National Bank Shares, which ruled so weak yesterday, grew firm to-day and rose on yesterday's price. Still we pronounce the "horse to be tired", and all the Italians in the market spurring him on. It may be that the Italians will succeed in getting out of the stock without the bottom falling out of the share tub, but it looks difficult. We note that on the sidewalk and around the Bolsa gates the crowd of small Italian dabblers in the stock is increasing. We repeat our statement "Gli Italiani sono ora i padroni assoluti del mercato". There is far more Italian spoken on Change now than any other European tongue, save Spanish. We heard numbers talking of 'di denari', and the 'trovandosi' seems to be a hard business. The shares opened rather drooping at 128⅜ cash, but stiffened and closed at an advance of ⅛, at 128½; cash sales 429 shares. For end of month 2,550 shares sold, opening at 128⅜, running up to 129⅜ and closing at 129⅛. For Friday 150 shares sold at 129, for Saturday 150 shares sold at 128⅛, and for Oct. 31st 800 shares at 129⅜, then 130 and closing at 129⅜. For Dec. 31st 100 shares sold at 123, which marks 3 off yesterday's rate for same date.

National Bonds, 1876, 3,800 sold at 90.

Gas Shares sold yesterday at afterhours 95 shares at 2,000 each and 60 at 2,100, but the stock is offered to-day under those rates.

The Forfar, about which we all had so much concern, entered port to-day. She threw over board 100 tons coal to get off, and has now 1,543 tons, which were sold to arrive some time ago.

Mr Seeber's proposal to make a railway to Bahia Blanca may, now that the Southern Railway has taken the matter in hand, be changed to a line of railway from Bahia Blanca to Patagones, which is of all others the line most needed to connect us with the Rio Negro. The National Government would doubtless give Mr Seeber every assistance in the way of guarantee or capital, and although the camps between the Colorado and Rio Negro are almost without a single estancia or poblacion, still in a few years all these camps will be settled on, and the railway would more than anything else help to people and settle them.

Letters from London say that a sharp letter against the new English Bank in the R. Plate has appeared in one of the London papers. The River Plate Loan and Trust Company has been launched successfully, half the capital subscribed. The people in London are frightened at the number of new projects, &c., in the River Plate that the last *Standard* announce.

The sale of a fine estancia, partido Brandzen, half league front by 1½ league deep, with estancia house, puestos, &c., for 1,320,000 m/c is reported.

Also the sale of some more land near Gainza at the rate of 110,000 m/c per league.

The Minister of the Interior is arranging for the formation of the new Irish colony on the Rio Negro, and the engineer is sent down to mark out the land. Mr Howard will be named by the Government to direct the affairs of the colony; he speaks Irish, has a long experience in the R. Plate, and has supplied the Minister with the highest testimonials. We trust that under his charge the colony will prove as great a success as the Welsh under Mr Jones.

The sales at the ring were—

For Sept. 30th 150,000 25.60-55

We heard on Change that Messrs John Hyde & Co., of London, are opening business relations with this market.

The Italian str. Centro America entered port to-day from Genoa; also the Diana from Rosario, and the Cosmos from Uruguay, also a British gunboat. The British barque San Lorenzo sailed for Campana, and the Lady Louisa for Montevideo.

Telegrams from Bahia Blanca report Villarino there, having landed Welsh colonists at Chubut; weather terrible on the coast.

Twenty boletos for National lands sold to-day at 30,000 m/c per.

An accident occurred in port yesterday, which, if the steamers landed their passengers at the Catalinas Mole, would have been avoided, a collision between two whaleboats, passengers pitched into river, but all saved.

Gold at afterhours was much offered, sellers cash at 25,50, and for end of month 25.55, and sellers for all the year at 25.50.

The Provincial Bank has not altered its exchange rate, and discounted to-day 3½ millions.

Mr Oldham took leave of his friends on Change to-day, he sails to-night for Montevideo.

Merchants here remark that exporters in Montevideo are making speculative business in dry hides, pretty much as they make sales here for Nat. Bank shares. The business is quite a new one in the hide line, and they were offering on Change to-day dry hides for Oct., Nov., and December the same as in the Mount, we believe not yet sold.

The sale of 10,000 Cordova hides for Spanish account is reported at from 50 to 52 rls.

The azioni della Banca Nazionale ruled somewhat firmer at afterhours, owing to the news that the bulls raised six millions to-day at 12 per cent on the shares, and yesterday another heavy speculation took up 200,000 pats on the shares; thus we have 11 millions taken up in two days on this most speculative of stocks; no wonder that in the general market they say money is tight when such large amounts are taken up on this stock.

We believe our colleague errs in attributing to any speculator 400,000 fuertes profit in Nat. Bank Shares. No one party that is known to the ring has made so much, but many have cleared 100,000 fuertes, and even some double that amount.

At afterhours there was a fair business done in Bank Shares, closing at 129½ sellers for end of month.

The following sales reported at the Plaza Once this morning:—
8 waggons with produce arrived.
36 waggons with 1,864 sheep arrived.
The sales were—
No wool sales.

The following official returns of the receipts on the Western Railway for the first eight months of this year are of much interest:—

Receipts to Aug. 31st.... 25,135,837 m/c.
Same period in 1880..... 20,468,670

Increase this year 4,661,167 m/c.

The net profits of the first eight months last year were 10,202,056 m/c, and, on the basis of the expenses this year, for the same period, the net profits will be $11,771,821, or an increase of $1,569,764. It must also be taken into account that the receipts of the last four months of the year always give a net 40 o/o on the whole. The above figures show the flourishing state of the Western Railway and speak highly for its management.

A Subscriber just returned from Rosario favors us with the following:—

"Great improvement of Rosario within the last 15 years. Good houses and streets fairly paved. Coming crop from the colonies expected to be more than double any previous one. Agriculture has done wonders for Sta. Fe. Immigrants apparently not looked upon as 'intruso' in that part of the country, hence the extensive development of its resources. Capitalists eager to introduce modern improvements, and thus avoid heavy expenses in moving wheat, such as are incurred in B. Aires. The elevator being constructed will cost about 200,000 pats. gold. The engine of 70 horse-power. There are 73 bins capable of containing 600 fanegas each. Vessels load alongside. Lands going up in value. Rents on 'pasto tierno' camps on a par with B. Aires rents. Camps from Rosario to the Arroyo del Medio in splendid condition and compare favorably with the best campo in B. Aires. In the partido of Pergamino, and near the Arroyo del Medio, are estancias belonging to Srs Mariano Benites, Ocampo Hos., and Boer. These lands are in magnificent condition, probably nothing to equal them in the country. From Pergamino to B. Aires the camps are magnificent, and all looking forward to a splendid season."

The Tamar's mails bring the following important advices:—

"Germany—It is now stated that some days ago an officer of the Chilian Navy named Lynch went to Kiel in order to act with the authorities there in the seizure of the two steamers Diogenes and Socrates, which were purchased by Messrs Sloman at Hamburg for the Peruvian Government. M Howaldt, the proprietor of the shipbuilding works at Kiel, protested against Mr Lynch's interference, and the Chilian officer was obliged to call upon the German Foreign Office at Berlin. The German authorities were, of course, quite ready to help the Chilian Government in this affair, and orders were immediately given to seize the two steamers. Public opinion at Kiel is still very excited about this matter. The sympathies of the population seem to lie exclusively with Mr Howaldt, and it is much feared that by this act of the Government the shipbuilding works of Germany will suffer severely."

Advices from Rio by the mail give the following:—

"The following amounts on account of capital have been deposited in English banking or business houses by railway enterprises upon which the Brazilian Government has guaranteed interest under the law of Sept. 24th, 1873:

	£	s.	d.

"Dom Pedro of Brazil is now credited with the first official announcement of the new Comet, fully two days before Dr Gould's despatch. Dom Pedro's despatch was sent to Paris.

"The failure of a Liverpool firm in the Brazilian trade, referred to under this head on Saturday [July 23rd], is that of Messers Duarte, Potter & Son, which was established as far back as 1815. An estimate of the liabilities places them at £150,000, and it is understood about £75,000 of the firm's acceptances are in the market. A favorable liquidation is expected."

Venderemos al mejor precio y a plazos, por orden del Exmo. Gobierno de la Provincia de Santiago del Estero y con acuerdo de su Legislatura.

Cien leguas de campo, divididas en lotes de a cuatro, teniendo sin embargo el comprador derecho a tomar desde una hasta las cien.

El Gobierno de Santiago ha sido, como lo de cimos, autorizado por su Legislatura a vender esta gran zona de tierra, pero a objeto de facilitar la operacion, la venta se hara sin otro plano que el de la Provincia, por cuanto se da el derecho de ubicar donde se quiera, dentro de los limites de la misma.

Con este derecho cualquiera persona que este en el secreto de la situacion de un campo inmediato a la plaza principal, a las quintas contiguas a la ciudad o por sus alrededores, puede pedir su ubicacion alli mismo, como tambien los que conozcan donde existen los que puedan tener pastos de primera calidad aguas permanentes, montes, etc.

El pago se hara mitad al contado al estenderse la escritura y el resto a 6 y 12 meses en garantia del mismo campo.

En resumen—Jamas se ha puesto en venta un lote de tierra en iguales condiciones y desde hoy el publico debe procuparse de averiguar en que punto pedir la ubicacion del numero de leguas que necesita para la plantacion de establecimientos de campo, ingenios etc.

CENTRAL ARGENTINE LAND COMPANY.

The ordinary general meeting of this company was held at the offices, Palmerston-buildings, Bishopsgate-street, on Thursday, the 7th July; Mr Henry Brockett, the chairman of the company, presiding.

The notice calling the meeting having been read by the Secretary (Mr George Woolcot), the report of the directors was taken as read.

The Chairman said that he had much pleasure in meeting the shareholders on the present occasion, because he felt that he was in a position to announce that the company had advanced to a comparative state of prosperity, which they had been for so many years striving to attain. (Hear.) When last he had the pleasure of addressing them about this same time last year it would be remembered he pointed out the progress made during that year, and he also alluded to the increase in the number of colonists, and was able to show that the general position of the company had materially improved. It would moreover be remembered that he then stated the company was enabled to pay a dividend of 5 per cent., and to place £2,000 to a reserve fund. Since then, he was happy to say, the condition of the company had become even brighter, and he had to congratulate the shareholders on the still more favourable report the directors were now enabled to lay before them, for, irrespective of the proposed dividend of 5 p. cent, the same as last year, the board have added during the current year £10,000 to the reserve fund, thereby increasing it to £12,000. It was needless to go minutely into items in the accounts, which were very fully and clearly set forth, but he would like to direct attention to a few important matters. The contracts for land sold at December 31. last show a total of £84,475, but in which was included instalments immatured, amounting to £23,226; instalments in arrear, rent interest, and advances due from the colonists amounted to £44,095, as compared with £44,890 at the end of the previous year. This was a satisfactory feature, and the manager considered that the value of this asset had improved as compared with what it was previously estimated at owing to the improvement in the condition of the colonists. The company had not as yet received the remainder of the lands to which they are entitled, but they must not attribute the blame wholly to the National Government, for, pending a settlement of the claim made by the Provincial Government of Santa Fe and Cordoba for property tax, the board had not considered it advisable to take over further portions of the land acquired by the company, which have been expropriated in Cordoba. But the directors believed that the matter was now in a fair way of being settled, the National Government having issued a decree pointing out the necessity of facilitating all measures which may tend to the prompt and definite conclusion of difficulties. The decree was as follows:—Art. 1. 'Let a note be addressed to the governors of Santa Fe and Cordoba setting forth the desirability of those Governments laying before the Legislatures of their respective provinces a law by which the Central Argentine Land Company shall be exempted from the payment of taxes on the land ceded to it by the law of May 23rd, 1863, for the term they may think proper.' It would seem that, although the decree of the National Government was not in the form of an absolute command, it would really have that effect on the provincial Governments of Santa Fe and Cordoba. The report from their general manager fully described the result of the company's operations during the past year, and he need not offer any remarks thereon, as Mr Henry Boardman had recently arrived on leave of absence from Rosario, and he would be happy to answer any questions and to give any information in his power, the directors being desirous that the shareholders should have the fullest information in connection with the enterprise. The directors recommend the declaration of a dividend at the rate of 5 per cent from the funds available at the end of the past year, absorbing £5,331. The operations of the company have hitherto been almost exclusively directed to dealing with the lands in the province of Santa Fe, and the table embodied with the report showed how those lands had been expropriated. The total number of acres of land originally granted by the concession of 1863 was 967,392, or thereabouts, and of which 333,600 still remain to be made over to the company. The directors, with deep regret, referred to the death of their respected and valued colleague, Mr Samuel Waterhouse, whose loss they very deeply deplore. A resolution would be submitted for the approval of the meeting of a decision come to by the directors to the effect that any casual vacancies on the board should not be filled up until the number of directors be reduced to six. Mr Henry A. Brassey, M.P., and Mr Alexander Ogilvie are the retiring directors, and being eligible, they offer themselves for re-election. The Hon. Albert H. Petre, and Mr Brodie Manuel de Zulueta also offer themselves for election. The auditors retiring are Mr R. P. Harding and Mr W. T. Lindford, who offer themselves for re-election. With these few observations, he would conclude by moving that the report of the directors and statement of the accounts for the year ending December 31st, 1880, be received and adopted.

Mr Walter Morrison, in seconding the resolution, had much pleasure in endorsing the remarks made by the chairman as to the improved position and favourable prospects of the company, which they had waited long enough for. He (Mr Morrison) would like to say a word or two on the matter which would in all probability form the chief subject of discussion, namely, the amount of dividend to be declared. (Hear, hear). It was the great object of the directors in administering the affairs of the company to make the dividend as uniform and reliable as possible. The idea originally was that, as the land was sold and the money received, the sams should be distributed amongst the shareholders, but under the advice of counsel this was altered two years ago, and dividends as the shareholders were aware, were now paid out of the surplus receipts. The paid up capital of £106,000 had been spent chiefly in the way of advances to colonists, and in machinery, &c, for the cultivation of the land. A large portion of the advances were, unfortunately, not likely to be repaid. The concession of the guarantee to the railway company was for forty years, say from 1866, which period, however, could be extended at the option of the Argentine Government. The reserve fund, with the £10,000 added during the current year, amounted to £12,000, and if supplemented with £2,000 a year in future, would, with compound interest, recoup the present capital at the expiration of the term of the concession referred to. It was the desire of the directors to protect the interests of the shareholders in every way, and to avoid any risk of their being called upon to repay dividends to make up any deficiency in the capital consequent upon the distribution of funds received from the sale of lands. He was only the holder of 330 shares in the company, but he had no wish to be drawn into court hereafter to refund dividends.

Mr Surgey thought that the placing of £10,000 on the present occasion was too large a sum.

The Chairman explained that the £10,000 was proposed on the present occasion to make the reserve fund £12,000, as it was desirable to make that sum up to £20,000 as early as possible; after which £2000 per annum would be sufficient to provide for the repayment of the capital at the end of the period fixed by concession. He hoped in two years' time shareholders would be in receipt of a much larger dividend.

Mr Surgey said he would much prefer the amount derived from the proceeds of land being divided every year instead of having to wait thirty years for the replacement of the whole of the capital.

The Chairman called the attention of the meeting to the fact that if they placed the £10,000 as proposed to the reserve fund, considering the company had been in existence for eleven years, it was only about £1000 a year on the average. The shareholders must also bear in mind that it was a very different thing selling land in this country to what it was in the Argentine Republic. Here the money was paid down, whilst out there it was paid for by instalments extending over long periods, so they could not sell the land off and divide the money at once.

Mr Brodie Manuel de Zulueta objected to the placing of £10,000 to the reserve fund, considering that £1,500 a year placed to that fund would be ample, and they would then have sufficient to pay on the present occasion a further sum of 1s. 6d. per share by way of bonus. In conclusion, he moved as an amendment to the adoption of the report, "That this meeting approves of the policy put forward by Mr. Petre and Mr Zulueta in their recent circular as one that should be adopted, and hope that the board will take the necessary steps in that behalf."

Lord Clifford seconded the amendment.

Mr Travers Smith, solicitor to the company, explained the legal bearing of the subject, remarking that if the company paid dividends out of capital, the shareholders would lose the benefit of limited liability, inasmuch as anything illegally paid to the shareholders could be afterwards recovered from them. The reserve fund was not being formed to equalise dividends, but to keep the capital intact.

Mr Seal said in the course of his remarks, which were favourable to the payment of a larger dividend, that he considered it very unwise to form a large reserve fund, as the Government might refuse to take up the 17,000 shares offered to them on terms which had been agreed to, and leave it to the company to improve the land; but if the Government took up the shares they would for their interest do all they could to colonise the land. He hoped the board would fall in with the views of Mr. Petre and Mr Zulueta.

The Chairman said it was not until 1879 the company was recognised by the National Government and the articles approved with modifications. An arrangement was then made enabling the Government to take up 17,000 shares, their quota, though they had not at present, owing to the want of funds, availed of their right to do so. In the event of their paying their quota, however, they will be charged interest at 5 per cent. per annum, which, up to the present time amounted to about 10s. per share.

Mr. Surgey said that he was anxious that an amicable arrangement should be come to between the directors and the shareholders, and would suggest that a committee of conference should be appointed to meet the board and see if they could not amicably arrange the question, and he suggested that the meeting stand adjourned for a fortnight.

Mr. Stewart thought a compromise might be come to by the directors declaring a 7½ per cent. dividend, and that the matter be referred back to them to consider what further dividend they could give] the [shareholders at the next meeting.

After some discussion the previous amendment was withdrawn and the following substituted—'That this meeting stand adjourned till Tuesday week at one o'clock, and that Lord Clifford, Mr. Surgey, the Hon. Mr. Petre, Mr. Zulueta, Mr. Seal and Mr. Harrison be appointed a committee to confer with the Board of Directors on the subjects of the dividend and the reserve fund discussed on that day.' This was dulyseconded and agreed to.

A vote of thanks to the Chairman closed the proceedings.
